the rental. at they would at the same time have to pay of a reproductive Character, as the Shops would bring in a rental of at least 50 Rupees per Annum or Rupees 600 annually thus giving a yearly interest of 24 per Cent on the original outlay. ——

III Plans and Estimates for building a line of shops on the east side of the Vegetable Market, as well as for rebuilding the Market Towers.

Resolution — The estimates submitted by the Municipal Executive Engineer for the construction of a line of shops and the Mark tower exhibit Rs 2530 and Rs 1850 respectively. The amount realized from sale of waste sites in the Town amounts only to Rs 1465, am which sum the Commissioners resolved at their former meeting should be utilized towards the improvement now brought forward. As the Commissioners now find that it is impossible to carry out these large works from the small sum at their disposa they resolve that only the building of the market tower be carried out for the prese the estimated cost of which is only Rs 1850 and they further resolve that application be made to the Chief Commissioner for sanction to defray the differenceof Rs 385
